

Athonite Charcoal Powder

Lighting Instructions

Open can carefully to avoid spilling. Do not throw away old ashes. Scoop out ashes from the center of the censer to form a small cavity. Place ½ heaping teaspoon of charcoal powder in the cavity and light it with a grill lighter or a thin candle for 5-10 sec. Wait 2-3 min. until all powder starts glowing. Place a few pieces of incense on top.

Safety precautions. Do not light charcoal powder near an open can of the powder or flammable objects. Children should use it under adult supervision.
